To Whom It May Concern

During the last 18 months I have undertaken 3 separate franchise ventures and on each occasion I asked Samuel Roberts to provide his expert legal opinion and advice regarding the franchise documentation, the business being conducted and various leasing arrangements and finance options.

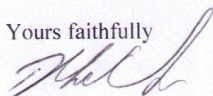

Samuel displayed a great depth of knowledge in all of these areas and has been instrumental in securing favourable agreements in negotiations with both franchisors and landlords.

As a direct result of Samuel's advice and negotiating skills my businesses have performed at a higher than expected level.

I have found Samuel to be an informed, thorough and reliable adviser and will continue to make use of the complete range of services he has on offer.

Samuel also maintains a high level of communication which has been of particular benefit to me and I would have absolutely no reservations in recommending the services of Roberts Legal to anyone considering entering into any form of Franchise operation.

Yours faithfully
